

NOTICE

Donelson Construction Company in conjunction with the City of _____ announces that we will begin a road project in your neighborhood **[Insert Working Dates Here]** (Barring weather delays and any unforeseen delays) we will be doing several streets throughout the city, we will most likely be on your street a short time not all days listed.

Please plan for 10-20 minute delays exiting your neighborhood or driveway. This is very temporary, and we will get you out as fast as possible!

This is going to be a temporary inconvenience to our residents, and we apologize in advance. We desire to make our residents aware of the actions we are undertaking in your area.

Throughout this day, please expect temporary delays.

We will be resurfacing your street. Your driveway will have temporary blockage. There will be maintenance cones placed at your driveway indicating **fresh oil** will be present. This is very temporary and necessary to allow the material to dry. We expect the blockage of your driveway to be very minimal, up to 20 minutes.

Please make sure all lawn irrigation systems are turned off, as water will prevent the material from adhering to the roadway.

Please! Make sure you have all vehicles out of the roadway. Vehicles left in roadway may be towed.

We provide this information for your benefit. With your partnership this project will be completed. We appreciate your patience.

Construction will typically begin at approximately 7:00AM – 5:00PM.

Please plan in advance for delays. Thank you for your cooperation.

If you need assistance or have any questions, please call Donelson Construction's

Traffic Control Supervisor

(Supervisor Name) at **(Phone Number)**
